

## EMERY & MANCUSO

The Specialist Endodontic Centre

### The Solent Endodontic Study Club

#### Speaker

#### Professor James Prichard

Visiting Professor & Programme Leader, MCLinDent in Endodontology at BPP University working with the City of London Dental School.

#### Title

The different uses of Bioceramic materials (Calcium Silicates) and their Role in 3D endodontics

#### Objectives

Bioceramic materials offer many advantages in dentistry and Endodontics in particular due to their physical properties. Among others advantages of Bioceramics are that they are exceedingly biocompatible, non-toxic, do not shrink, and are chemically stable. The attendees will understand the different generations of calcium silicate materials and their applications in dentistry including dental trauma, apical surgery, root perforation and vital pulp therapy. In addition, they will understand the new concept of 3D preparation an 3D obturation of the complex root canal system.

#### Venue

Chris Emery Suite  
The Specialist Endodontic Centre  
20 Goldsmith Avenue  
Southsea  
PO4 8QT

#### Date

Wednesday 07<sup>th</sup> of December 2016  
6.45pm – 8.45pm  
6.30pm registration  
Coffe and pastries on arrival

Professor Prichard is a renowned teacher in Endodontics, delivering hands on courses, lectures and seminars throughout the UK and overseas. He has held the posts of Associate Clinical Teacher and Clinical Supervisor in Endodontics on the Masters Programme at The University of Warwick prior to joining BPP University in London as Visiting Professor and Programme leader for the MCLinDent in Endodontology. He has published in the scientific journals including the International Endodontic Journal, The British Dental Journal and Endodontic Practice. Subsequent to his qualification in 1994 James established a successful endodontic referral practice in his home town of Coventry and, after relocating to North Devon with his family in 2013, takes endodontic referrals from dentists in the South West of England. James is a Key Opinion Leader for several endodontic companies and has demonstrated the latest advances in endodontic technology for Schottlander at the Dental Showcases and Dentistry Show since 2004. He gained his Masters Degree (MSc) in Restorative Dental Practice with distinction for his dissertation which he completed at The Eastman Dental Institute in London. In November 2011 he was awarded his Fellowship from the International Academy of Dental Facial Esthetics in New York.
