

Cases Study

Speaker

Dani Mancuso

BDS MSc PhD PostDoc Specialist
Endodontist and Prosthodontist

Title

How to manage deep caries?

Aims and Objectives

This Interactive lecture will demonstrate through clinical cases detailed knowledge and understanding of the pulp therapy in case of deep caries. It will explain the diagnosis and classification of deep caries and caries-induced pulpal disease and show the strategies to avoid and treat pulp exposure.

Intended Learning Outcome

By the end of the lecture, delegates should be able to access the best way to successfully remove deep caries and manage the pulp tissue. They will also be able to identify common mistakes during carious-tissue removal.

Venue

Free Webinar

DANI MANCUSO

BDS MSc PhD PostDoc

Specialist Endodontist & Prosthodontist

Dani qualified from University of Sao Paulo State in Brazil in 2002, where she was awarded the prestigious Maillefer Honours and Distinction Endodontic Award. She then enrolled into an extensive postgraduate program receiving her Masters Degree, PhD and PostDoctoral and became specialist endodontist and prosthodontist in both countries.

Dani worked as a Clinical Lecturer at Barts and The London Hospital Dental Institute in London, as an Associate Clinical Teacher at the University of Warwick and is nowadays an Invited Professor at University of Sao Paulo State in Brazil. She also lectures both nationally and internationally and provides in house postgraduate endodontic courses.

Outside of the office Dani enjoys spending time with her husband, two children and two cats. Her other passions are travelling, piano and classical ballet.
