Endodontist and Prosthodontist

## Title

Simple Single Obturation. Is it right for you?

### Aims and Objectives

This lecture will demonstrate through studies and clinical cases detailed knowledge and understanding of the most reliable obturation concept in endodontics nowadays. We will show what we use in our daily routine and why. It will also help the delegates to understand why the treatment fails even when the obturation looks good in the x-ray

### Intended Learning Outcome

By the end of the lecture, delegates should be able to incorporate new ideas and simple techniques into their everyday practice for a simple, fast, reliable and successful long-term obturation.
