

Case Study

Speaker
Dr Dani Mancuso

Decision-making in post-endodontic restorations

This engaging lecture will illustrate, using clinical cases, a thorough comprehension of various types of endodontic restoration and their practical applications.

Upon completion of the lecture, participants should possess the capability to evaluate the optimal approach for restoring a tooth post-root canal treatment. Additionally, they will gain a comprehensive understanding of contemporary concepts in dental restoration, empowering them with the knowledge and skills necessary to make informed and effective decisions in the field.

Online
20/6/2024
7pm-8pm

1 hour vCPD.
